One cool customer

Some guys have all the luck! While helping the "Extreme Makeover: Home Edition" team demo the Marshall family's former home to make way for their new-and-improved pad, **Wayne Wooten, Empire Disposal Ltd.**, made a new acquaintance: designer Tracy Hutson. As others guys wilted (and fainted) in the summer heat throughout the project, Wooten played it cool and posed for an impromptu portrait with the EM:HE beauty in the shade – in his shades! **Cheldan Homes** served as superintendent for the Lancaster project. –mjm
