**RE: Dallas Metro Ministries Project**

**Dear Sandra,**

**I wanted to pass along a personal thank you again for supplying your dumpsters to the project. I had only expected one dumpster but when Rondie's truck broke down Mike rushed another one right over, and did we ever need it. We discovered 5 layers !!!! on the building and it all came off about the size of quarters so the dumpsters were a blessing and we certainly could not have done the project with out them.**

**And you can be sure that the next time I need a dumpster for the business you got my business. Good looking equipment. It's a shame it has to get dirty.**

**Thanks again so much.**

**Sincerely,**
